

## Curriculum Vitae David Weisrock

### Contact Information

Department of Biology  
University of Kentucky  
101 Morgan Building  
Lexington, KY 40506  
Phone: 859-257-2249  
dweis2@uky.edu

### Current Position

08/2008-present    Assistant Professor  
Department of Biology, University of Kentucky

### Previous Positions

10/2006-08/2008    Postdoctoral Research Associate  
Department of Biology, Duke University  
Supervisor: Dr. Anne D. Yoder

08/2003-09/2006    Postdoctoral Research Associate  
Department of Biology, University of Kentucky  
Supervisor: Dr. S. Randal Voss

### Education

1997-2003    Ph.D. Evolution, Ecology, and Population Biology  
Division of Biology and Biomedical Sciences,  
Washington University in St. Louis  
Advisor: Dr. Allan Larson

1995-1997    M.S. Ecology and Evolutionary Biology  
Iowa State University  
Advisor: Dr. Fredric J. Janzen

1990-1995    B.S. Genetics  
Iowa State University

### Grants and Awards

Phylogeography of the Western Hognose Snake, *Heterodon nasicus*. \$3500, *Awarded*, National Biological Service Grant, 1995-1997. Co-P.I. with F.J. Janzen, Iowa State University

Dean's Award for Excellence in Undergraduate Teaching, Washington University, 1999.

Highlands Biological Station Grant-in-Aid, \$1000. 2001.

Phylogeography of salamanders of the *Plethodon jordani* species complex in the southern Appalachian Mountains. \$12,000, National Science Foundation, Doctoral Dissertation Improvement Grant. 2001-2003.

*Ambystoma* Research Coordination Network. National Science Foundation, Research Coordination Network Program, *Rated Outstanding in Jan 2006, but insufficient funding to award*. Co-PI with SR Voss (UK Dept. of Biology).

Genome-level resolution of species boundaries and phylogeny of the North American tiger salamander radiation. \$450,000, *Awarded*, National Science Foundation, Systematic Biology Program. Lead PI with Co-PIs EM O'Neill (UK Biology) and R Yoshida (UK Statistics). 2010-2012.

Kentucky EPSCoR: Transforming Kentucky's New Economy. National Science Foundation. Co-PI, Ecological Genomics Section.
