

Pilot Knob State Nature Preserve

Trails and Scenic Areas

- Sunset Visible
- Local Roads
- P Parking
- Streams
- Trails**
- Pilot Knob Overlook (1.2 Miles)
- Sage Point Trail (2.0 Miles)

The Scenic Index was calculated by first determining Hillshade using 10m DEM data to calculate illumination for the area using parameters showing a Sunset on October 5. Then an NDVI calculation was ran using 2014 1m NAIP imagery to show areas on the map where the canopy would allow you to view the sunset unobstructed. The Final Scenic Index shows areas unobstructed by canopy cover and above median elevation (Prime Sunset Viewing Areas) Trails were mapped using GPS. This map is a geospatial PDF.
