

**Pilot Knob State Nature Preserve  
Trails and Scenic Areas**

- Pilotknob Placemarks
- Pilotknob Trail Line
- Can see Sunset or Sunrise

On September 21 we hiked the trail of Pilot Knob using Avenza PDF maps as our GPS. We then took that information and made it into a map using Arc-GIS. We used the NDVI to display the areas without canopy using the 2014 1-meter NAIP and then used the hillshade to display viewable sites of the sun using a 10-meter DEM.
